PROFESSIONAL EXPERIENCE

IT Project Manager (Contract)

PowerFix Gadget Repair | June 2025 – October 2025

Managed the coordination and delivery of software development projects for PowerFix's web platform and mobile application, acting as the primary bridge between stakeholders and the development team.Managed the complete software delivery lifecycle, from gathering business requirements and prioritizing feature requests to coordinating development, testing, deployment, and launch.

- Coordinated project timelines, sprint activities, and development priorities to ensure timely feature delivery.
- Worked closely with developers, designers, QA testers, and stakeholders throughout the project lifecycle.
- Facilitated project planning, task delegation, progress tracking, and daily team coordination.
- Reviewed application features, user interfaces, documentation, and deliverables before deployment to maintain quality standards.
- Created project documentation, reports, feature specifications, and workflow guidelines.
- Produced application mockups, instructional materials, and user guidance documentation.
- Assisted in product planning by identifying workflow improvements and recommending feature enhancements.
- Maintained clear communication between technical and non-technical stakeholders to ensure project alignment.

Virtual Assistant | Project Coordination & WordPress Development

SpinDiv Kinetics | November 2022 – October 2023

Supported multiple business clients by managing websites, ecommerce platforms, digital content, and administrative operations while ensuring smooth day-to-day project execution.Supported the delivery of website projects including e-commerce websites, blogs, school portals, landing pages, sales funnels, website migrations, and job portals.

- Designed, developed, and maintained WordPress websites using Elementor.
- Managed WooCommerce stores, including product listings, updates, and ecommerce functionality.
- Built and maintained Shopify websites while assisting with ongoing website improvements.
- Created website layouts, landing pages, banners, and visual assets aligned with client branding.
- Implemented basic SEO practices, website optimization, and content updates.

- Coordinated website revisions and communicated directly with clients regarding project requirements.
- Managed website maintenance, troubleshooting, backups, and ongoing content management.
- Assisted with administrative tasks, documentation, scheduling, and digital asset organization.
- Utilized Google Workspace, Microsoft Office, CRM systems, and project management platforms to support business operations.
